---

The eq statting guide is available online under the builder links section. I'd add the link here but my firefox doesn't work right with this editor. [http://dragonswordsmud.com/eq\\_stat\\_guide.xls](http://dragonswordsmud.com/eq_stat_guide.xls) is the file. I know we all want our eq to be used and worn but try not to overstat your items so theres always a bit of room for more. If one eq lasts for 100 levels thats 100 levels we cant create eq for...which sucks and limits us. I'm sure questions will arise and we'll deal with gaps as they come.
