Recovery Bonuses	4	0	0

Skills

Safeguard

Half-giants are the product of a giant - human relationship. While incredibly strong and large, they suffer terrible mental problems. A half-giant usually strives to physically be the best in battle, the few who have entered the realm of magic, usually wish for a sword afterwards. There are no true giants left in the realm, only half-breeds, who do not possess the true size of their ancestors, but are nonetheless a large, vicious opponent.
